Remain in the home you love

Visit us for care when needed

PACE Place is a Program of All-Inclusive Care for the Elderly (PACE), a comprehensive, fully integrated, provider-based health plan for the frailest members of our community – those who require a nursing home level of care. PACE Place provides a wide range of medical, social, recreational and wellness services to eligible participants. The PACE Place philosophy is centered on the belief that it is better for frail individuals and their families to be served in the community whenever possible.

PACE Place is for Elders

Staying independent and aging in place at home is important to our elders. PACE Place understands this value and supports seniors to continue living in their homes safely as long as possible. Elders who enroll benefit from a wide range of healthcare services coordinated from and provided at PACE Place Health Center as well as in the participant's home 365 days a year.
